8. On a scale of 1-10 how important do you think education of bullying is?
   Over 5   88%/12%   5 and Under
9. What are our schools doing to combat bullying?

Our Dream

WHAT WE WANT FROM YOU

With our dream now played out. Let's talk about what we need from the principal. Our dream of linking an anonymous place to chat would be useful if we could incorporate it with our current school websites. If possible we would like to get some school counselors, Dean's and professional onboard with our website. We know this might be a big ask. But it's for the better. The better of the youth of this generation and possibly the future generations aswell.

ANONYMOUS

New Ideas

- An anonomous form of communication/chat where people can go to ~~the~~ talk with others about bullying and seek support. ~~This can~~ Some people who are bullied or struggle with low self esteem are afraid of being judged for speaking up.

- This could be a website/app that people can chat on anomomously.

- School councillors/people with experience dealing with mental health and helping others can have acess to this site/app.

Dream Future

Our dream future is where students can feel comfortable speaking up about issues without the fear of being judged. Students should have easy access to support from people experienced with the topic and an anonomous chat is a good way for them to get help with their problems. Feeling safe and supported can greatly improve wellbeing.

Keep

- Education on bully-ing and wellbeing in classes.

Remove Change

Grow

- To go into more detail and give more advice when teaching students about wellbeing.
- Having somewhere students can go who are scared to speak up, eg. an anonomous website/app.
